About Radioddity

‘You, our friend and customer, are our focus’

At Radioddity, our customers are important to us. As a customer, your time and money are important to you. When you buy radios online, you face a dilemma: buy from a reputable website at a high price, or try to save money by choosing a retailer that may not offer quality goods, service or advice. At Radioddity.com, you don't have to choose between low prices and a safe shopping experience. Whether you are a first-time shopper or an experienced radio amateur, we always do our utmost to ensure that you get the best possible value for money. Over the past few years, Radioddity has continuously strived to better meet the needs of wireless equipment buyers and has become a reliable partner. We do this by offering the highest quality products at an affordable price and by providing you with first-class support after purchase as well as out of warranty. Because as our customer, you deserve nothing less.

Our promise: To offer you the best shopping experience

Strong partnerships enable us to offer you the latest technologies with an excellent price/performance ratio under the Radioddity brand name. Our experienced and responsive customer service team helps us to deliver on our promise to you and better meet your everyday needs. Whether it's offering you the latest and greatest DMR, HF and analog radios, accessories and related products, providing outstanding technical support or working with amateur radio industry leaders to develop helpful content to assist you with your purchase: Your concern is our concern. We want to provide you with quality radios at great prices. If you feel we are not delivering on this promise in any way, please let us know by e-mail:

1 Firmware release notes

The following tables list the details that have been changed with new versions of the Xiegu XPA125B firmware. Generally previous updates are included in the latest version.

Note: *Never update your radio if it is not really necessary, or in other words: **Don't fix it if it's not broken!** This cannot be emphasized often enough. To update the Xiegu XPA125B, only use the firmware that you can find on our support pages. Before carrying out an update, make sure that the release package is still available for download on our support page. All firmware updates for the Xiegu XPA125B are supplied with 'Release Notes'.*

Please carefully read the 'Release Notes' and all documents contained in the firmware archives!

1.1 Firmware V2.0.1 as of January 14th, 2025

Revision	Changes	Released
V2.0.1 Jan 14 2025	<ul style="list-style-type: none">Fixed the issue of low-pass filter group jumping when transmitting in some bands.	2025-01-20

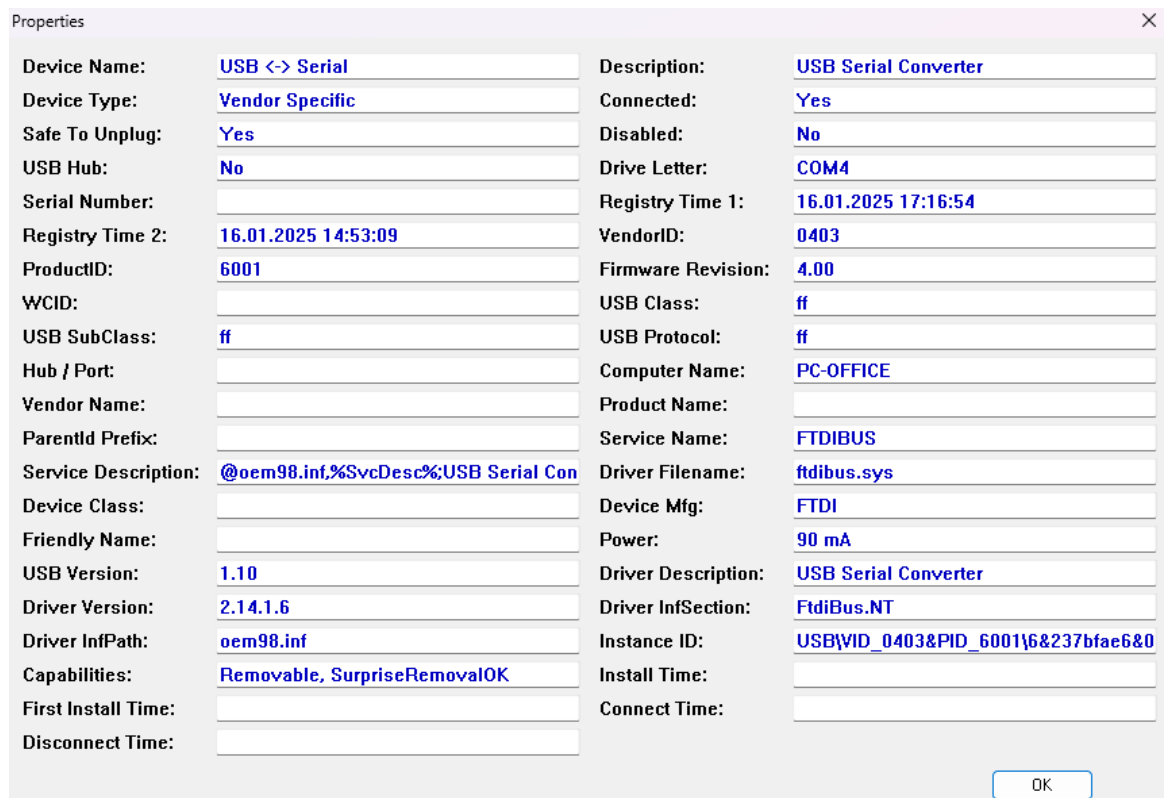

1.2 Firmware V2.0.0 build 013 as of September 20th, 2022

Revision	Changes	Released
V2.0.0 Build 013 Sep 20 2022	<ul style="list-style-type: none">No release details provided by Xiegu	2022-09-20

2 Updating the Xiegu XPA125B firmware

After downloading and unzipping the package, the Xiegu XPA125B firmware can be updated as follows:

1. The XPA125B needs to be powered by an external power supply at 13.8V.
2. Power off the XPA125B.
3. Connect the USB-cable that came with your XPA125B to the PC.
4. Check that the required driver has been installed. Using the tool USBDeview (you may download it from <https://www.nirsoft.net/>) the device properties should look similar to the following screenshot:

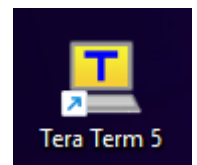

The screenshot shows the 'Properties' window for a USB device. The device is identified as a 'USB <-> Serial' device, specifically a 'USB Serial Converter'. Key details include:

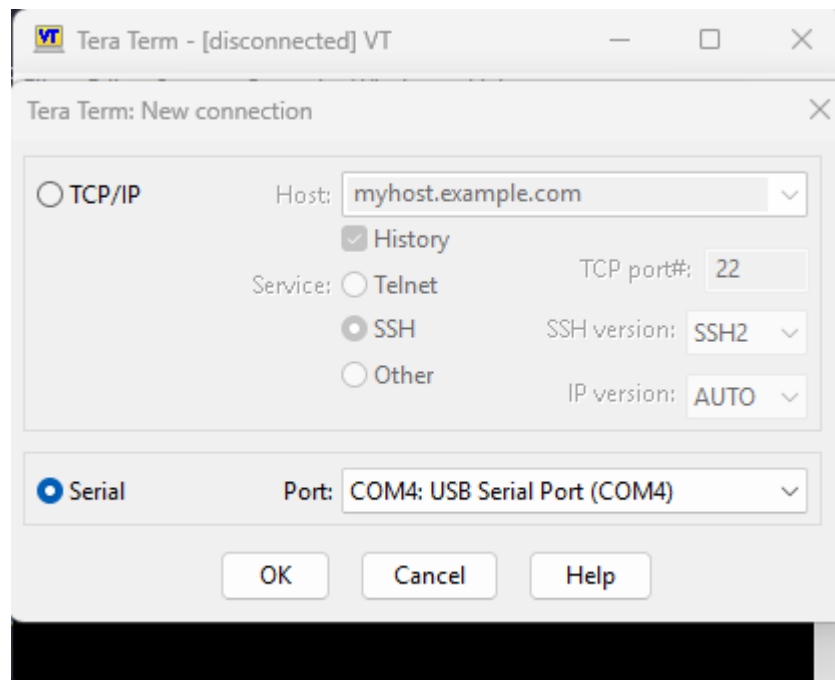

- Device Name:** USB <-> Serial
- Device Type:** Vendor Specific
- Safe To Unplug:** Yes
- USB Hub:** No

- Registry Time 2:** 16.01.2025 14:53:09
- ProductID:** 6001
- WCID:** (empty)
- USB SubClass:** ff
- Hub / Port:** (empty)
- Vendor Name:** (empty)
- ParentId Prefix:** (empty)
- Service Description:** @oem98.inf,%SvcDesc%;USB Serial Con
- Device Class:** (empty)
- Friendly Name:** (empty)
- USB Version:** 1.10
- Driver Version:** 2.14.1.6
- Driver InfPath:** oem98.inf
- Capabilities:** Removable, SurpriseRemovalOK
- First Install Time:** (empty)
- Disconnect Time:** (empty)
- Description:** USB Serial Converter
- Connected:** Yes
- Disabled:** No
- Drive Letter:** COM4
- Registry Time 1:** 16.01.2025 17:16:54
- VendorID:** 0403
- Firmware Revision:** 4.00
- USB Class:** ff
- USB Protocol:** ff
- Computer Name:** PC-OFFICE
- Product Name:** (empty)
- Service Name:** FTDIBUS
- Driver Filename:** ftdibus.sys
- Device Mfg:** FTDI
- Power:** 90 mA
- Driver Description:** USB Serial Converter
- Driver InfSection:** FtdiBus.NT
- Instance ID:** USB\VID_0403&PID_6001&6&237bfae6&0
- Install Time:** (empty)
- Connect Time:** (empty)

An 'OK' button is located at the bottom right of the window.

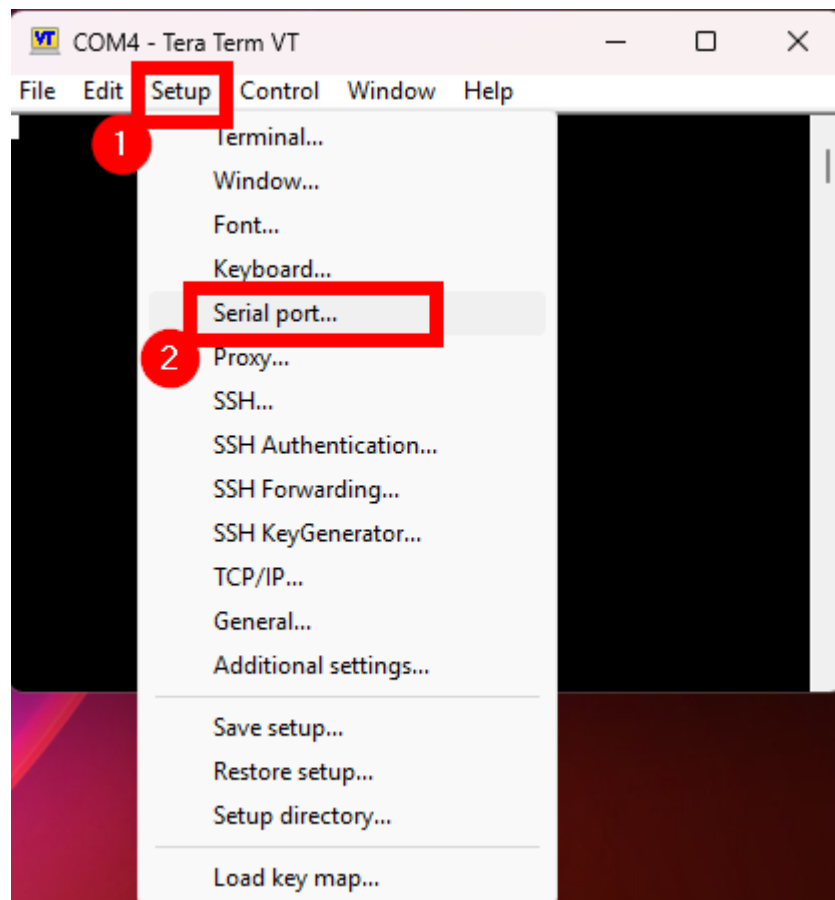

5. Start [TeraTerm](#) or some other terminal program that is capable of doing terminal emulation and X-MODEM-transfer using 1k block size. For your convenience we have added the current version 5.3. of TeraTerm to the XPA125B update-archive.

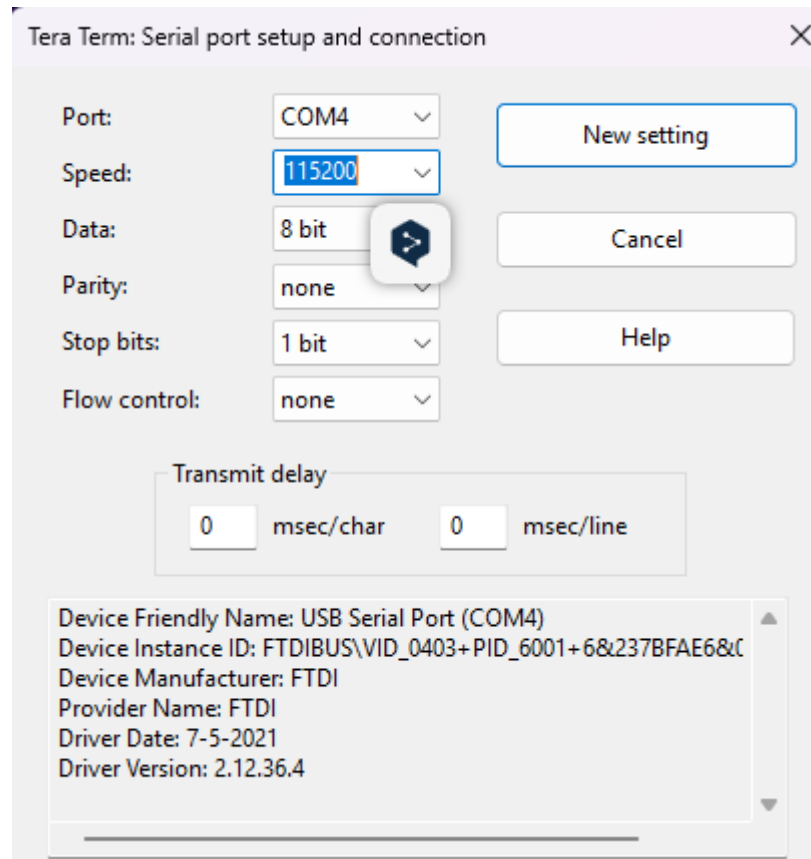

- Set up TeraTerm for establishing a serial connection and select the virtual COM-port that got assigned to your XPA12B programming cable.

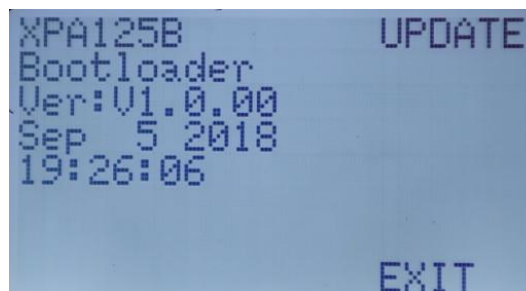

- Now select **Setup** → **Serial port ...**

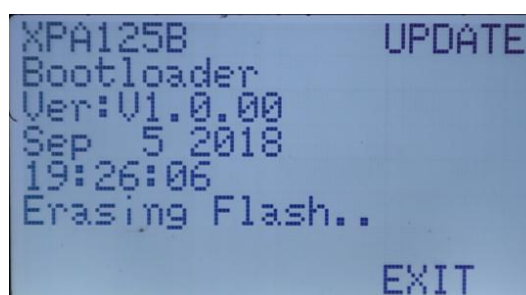

8. Setup the serial ports properties as follows:

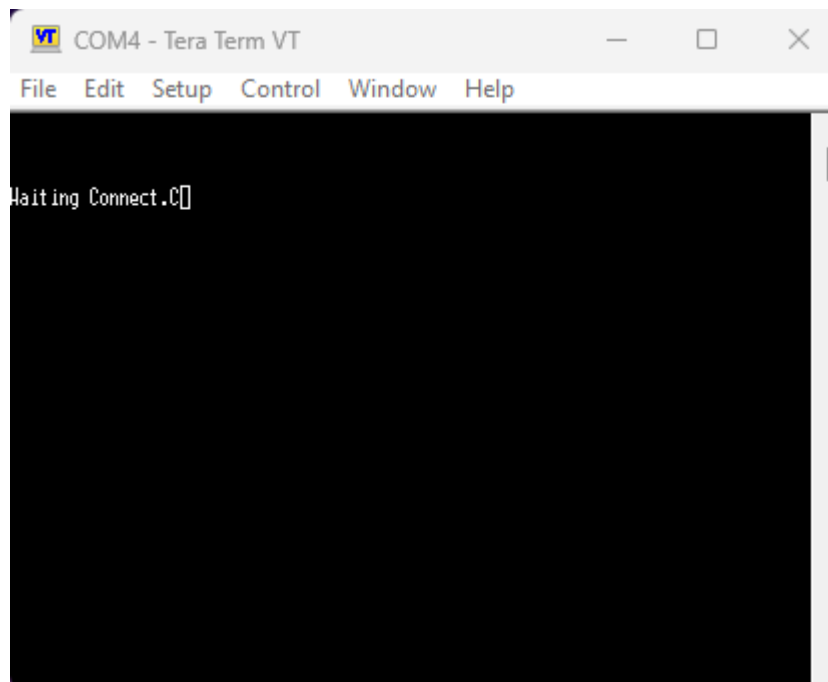

9. Press and hold the [PA] and [BAND] buttons of XPA125B.
10. Now additionally press the [POWER] button power on the device.
11. The display will show a screen similar to the following picture.

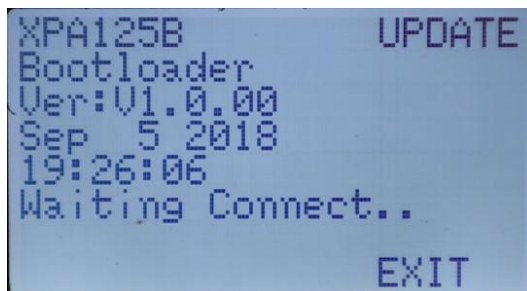

12. Now release all keys
13. Press the [PA] button (that corresponds to the UPDATE function in order to start the update process.
14. Immediately thereafter the existing firmware will be erased.

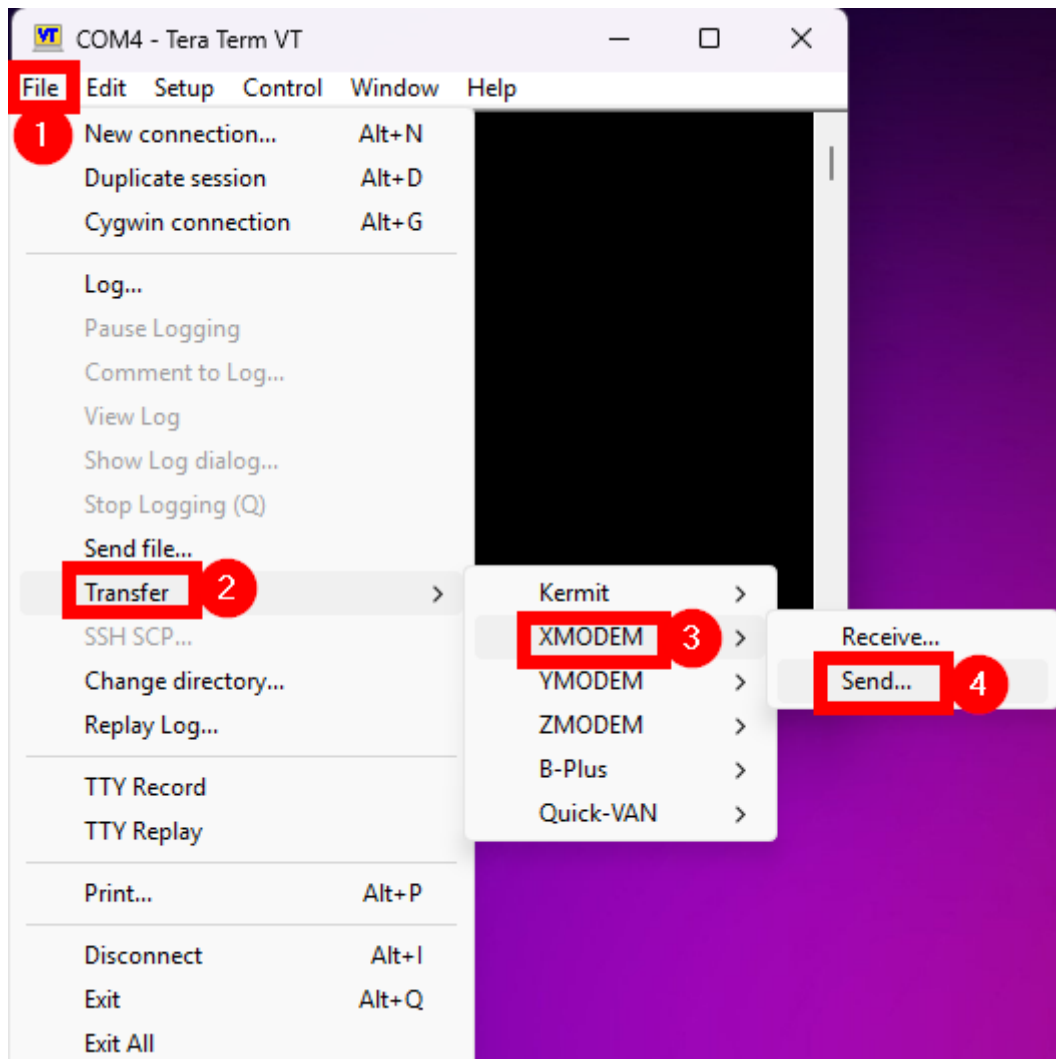

15. After the firmware is erased (that's after about 3 seconds) the TeraTerm window on the computer will display the following information:

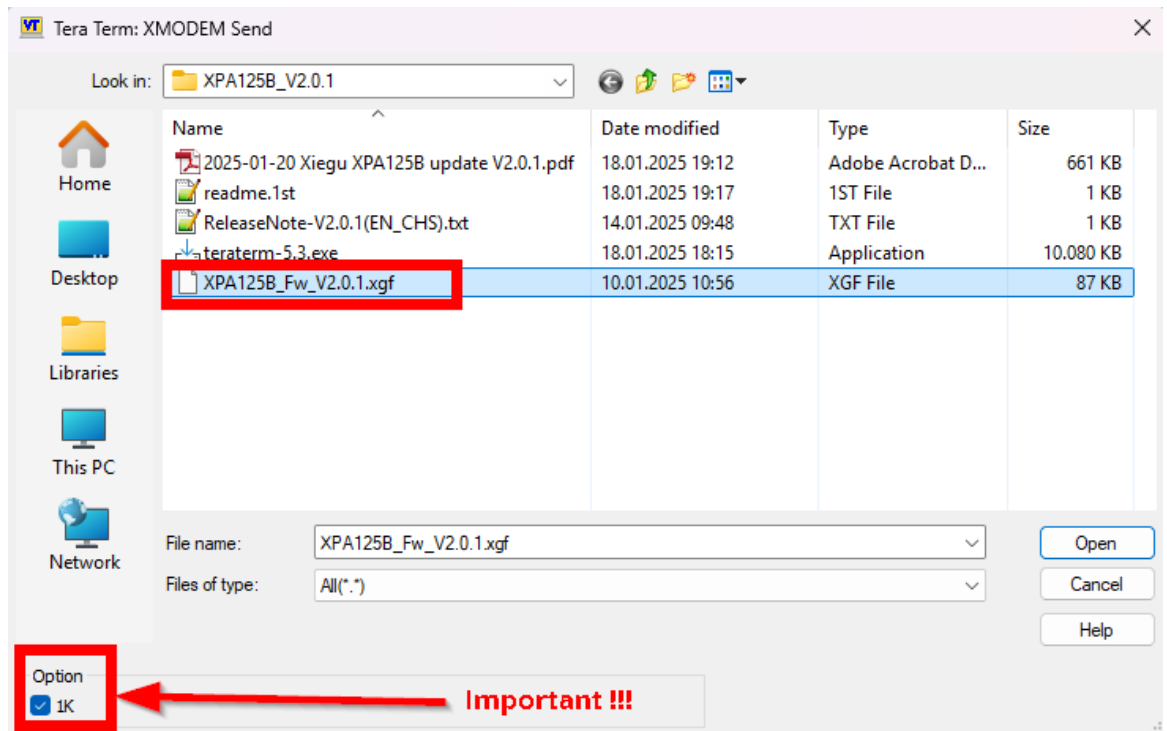

16. Now the Xiegu XPA125B is awaiting the new firmware.

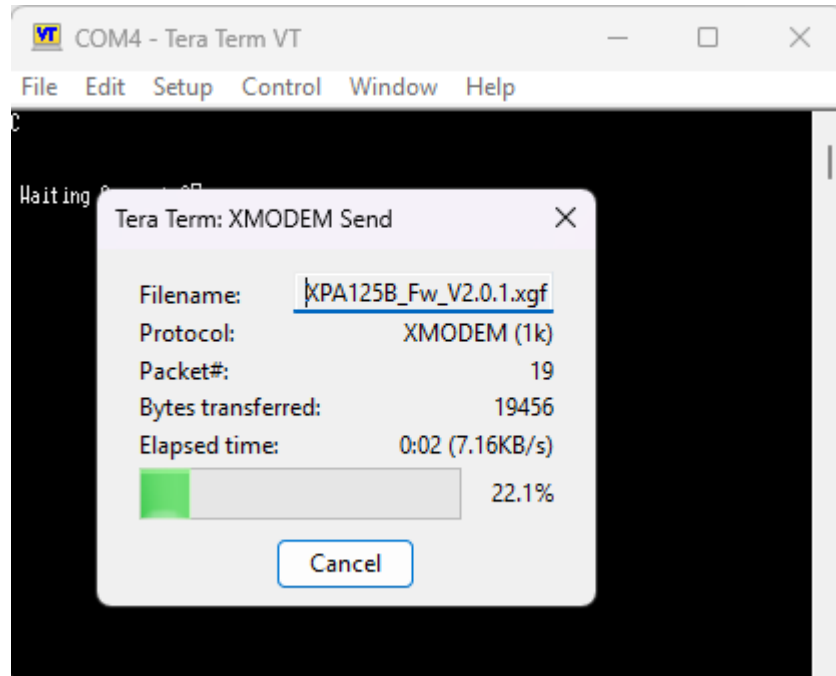

17. To initiate the transfer of the new firmware, select: **File → Transfer → XMODEM → Send...**

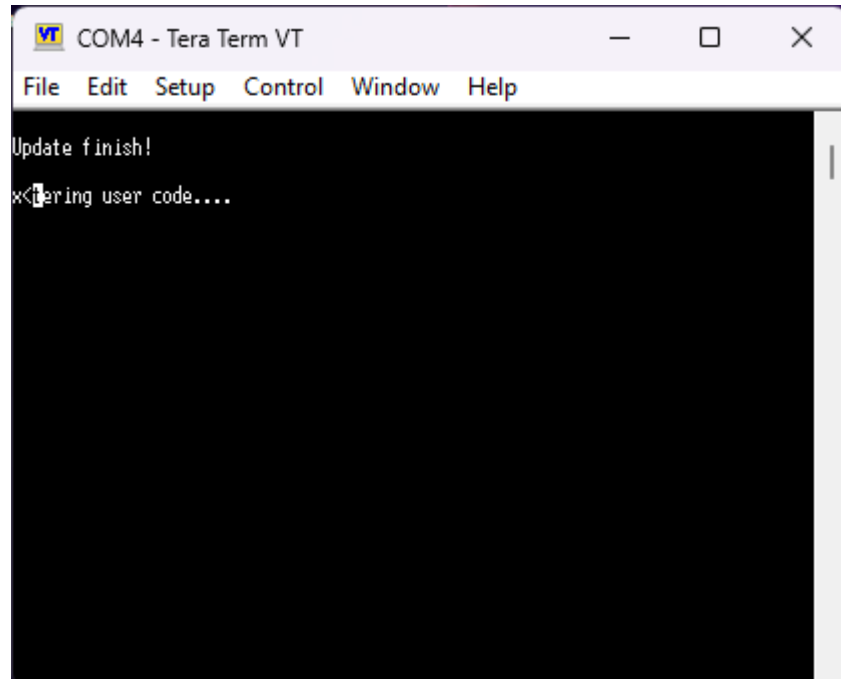

18. Navigate to the directory containing the new firmware file and select the file ending with '.xgf'. Do not forget to checkmark the 1k option box. This is very important. If you forget it, you will have to start the complete update procedure from the beginning.

19. The TeraTerm progress bar will show the current status of the transfer

20. As soon as the update has completed, the XPA125B will automatically power cycle.

21. Unplug the data-cable
22. Power cycle the Xiegu XPA125B
23. For about a second the XPA125B will show its Version details

This completes the update process.

Notes: *Never install any firmware not originating from Radioddity or Xiegu. Always check the availability of the update archive on the Radioddity support page for the Xiegu XPA125B before performing an update that may have been revoked in the meantime.*

3 Where to find further information?

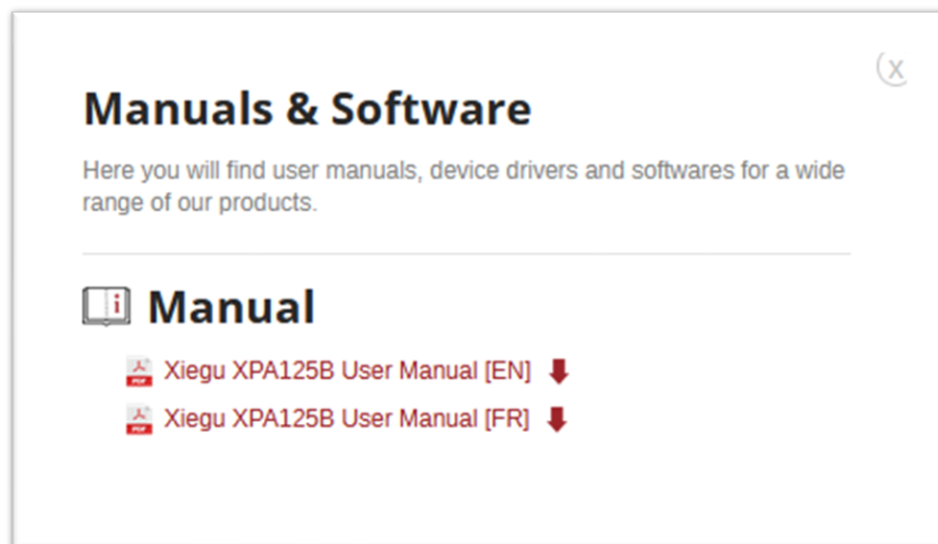

On the Internet you will find a variety of sources with information about the Xiegu XPA125B. When watching videos make sure that the Xiegu XPA125B in the video is at the same firmware level as yours (features can change and bugs may be fixed between firmware versions).

3.1 Radioddity support area

Please note that you can find all firmware, software and user manuals in the support section of our official Radioddity website by following these steps:

<https://www.radioddity.com/> → Support → Xiegu → XPA125B

For the Xiegu XPA125B, the resulting support page looks something like this:

As soon as a new file is available (e.g., firmware updates, updated manuals or others), these files will be published in our support area.

If you do find any bug in the radio's firmware, our manual or if you are missing a feature, you would have expected, write an email to support@radioddity.com. In general, the firmware-updates for your Xiegu XPA125B are free of charge. Using a firmware not originating from Xiegu may void your warranty.
